

**Call for Papers and Invitation to Training Course
Seventh Meeting
IMPACT EVALUATION NETWORK (IEN)
at Group for the Analysis of Development – GRADE, Lima Peru
October 25th and 26th, 2013**

The IMPACT EVALUATION NETWORK (IEN) at the Latin American and the Caribbean Economic Association (LACEA) is an initiative that aims to advance the state of knowledge and expertise regarding impact evaluation of different policies in the Latin America and the Caribbean region. The Network aims to promote impact evaluation methodologies, increase capacity building, and bridge research and policy in the region.

The seventh annual meeting will be hosted by Group for the Analysis of Development – GRADE, in Lima, Peru on October 25-26th, 2013. This year the program will include a keynote address by Dr. Norbert Schady (Inter American Development Bank). Also, the meeting features a panel on evaluation and policy making with the presence of a top-level authority in social policy. Presentation of up to seven papers selected on the basis of academic merit will take place over the course of the meeting.

The Network is seeking papers that use impact evaluation techniques applied to program or policy, with priority given to evaluations in countries in the region. We also welcome methodological papers advancing the state of knowledge of program evaluation techniques. A scientific committee will review submitted papers.

Interested researchers and advanced graduate students are welcome to attend and participate in the meeting and training activities even if they are not presenting papers. The number of participants, however, will be limited, so early registration is encouraged.
